

同居者が体調不良・濃厚接触者になった場合の対応フロー

Summary of COVID-19 Guidance for Students

A public health center will assess various factors and determine whether people have been in close contact with someone diagnosed with COVID-19. Even if individuals are notified of possible exposure by the COVID-19 Contact-Confirming Application (COCOA), there may be cases where it is not considered as a close contact.

★If a student is to undergo a PCR or antigen test, they must inform Tokyo Tech via email at <u>pcrteststudent@jim.titech.ac.jp</u>, and notify its result as well. In addition, those affiliated with laboratories must contact their academic supervisors.

Notes:

You may decide to undergo a PCR or antigen test for certain reasons, regardless of whether you have symptoms or you have had close contact with someone diagnosed with COVID-19. If you undergo a test and receive a positive result, you are not permitted to come to campus until all the conditions stated in "Regarding the length of absence" are satisfied. Coming to campus is not restricted if the result is negative.

Information regarding handling of authorized absences due to COVID-19 is available at the link below: <u>https://www.titech.ac.jp/covid-19/pdf/gakumu_20210108-3.pdf</u>

Regarding the length of absence

The absence must continue until all the following conditions are satisfied:

• At least 10 days have passed since symptoms first appeared. (The day of the onset of illness is Day 0.) For asymptomatic cases, at least 10 days have passed since the PCR/Antigen test. (The day of the PCR/Antigen test is Day 0.)

• At least 3 days have passed since fever and other symptoms were resolved without the use of medications. (The day symptoms are resolved is Day 0.)

• One week has passed since discharge from hospital or isolation at a designated facility.

If someone you live with feels sick or is identified as having close contact with someone diagnosed with COVID-19
