HUMAN BEING IN SPACE

. The Human Being and Space cannot be separated, we rest and move in space. It is not just a fundamental condition of our existence, it is also a prominent topic in the arts. How do artists perceive and express this human condition? With examples of Western paintings from different centuries we will explore the complexity and changes in the interaction of human being and space. The purpose of this workshop is to gain new knowledge and inspiration through the arts, and to find one's own individual creative ways of expression
